2009 SREB Annual Leadership Forum
Leading Learning Through Leadership Teams
May 7-8, 2009
Atlanta Airport Marriott

Forum Objectives

✓ To focus on the issue of building and supporting high-functioning leadership teams in order to improve adult and student learning in their states, universities, districts and schools
✓ To examine what states are doing to help universities and districts work together to prepare principals to be instructional leaders, especially for urban and struggling schools
✓ To identify models for improving how we prepare school leaders to address adolescent literacy issues
✓ To learn about, share and discuss strategies for sustaining state leadership redesign in an economic downturn
✓ To learn about what states and districts can do to support working conditions that help principals improve teacher and student learning in struggling schools.
✓ To equip states with practical guidance in implementing action in all of the Forum objectives

About the SREB Learning-Centered Leadership Program

The Southern Regional Education Board (SREB) recognizes the crucial role principals and school leadership teams play in improving schools and increasing student achievement. To help in this effort, the SREB Learning-Centered Leadership Program assists states and districts with the redesign of educational leadership preparation and professional development programs to align such programs with accountability systems and standards that focus on student learning. The program stimulates and supports states in this effort through these major initiatives:

- Conducting research on the preparation and development of school principals and preparing benchmark reports that track the progress of SREB states in improving school leadership.

- Providing guidance and assistance to states, districts and universities interested in leadership redesign. Keeping policy-makers aware of the urgency for change, spurring them to action, and maintaining momentum by convening annual forums and disseminating publications focused on key issues.

- Developing training modules that support aspiring principals’ preparation and current principals’ application of knowledge and practices that improve schools and increase student achievement. Preparing trainers to deliver the modules through university preparation programs, state leadership academies and other professional development initiatives.

The Learning-Centered Leadership Program is supported by these staff members:

Gene Bottoms, Senior Vice President, SREB
Kathy O’Neill, Director
Leslie Hazle Bussey, Director of Research
Jon Schmidt-Davis, Research and Evaluation Specialist
Teresa Valentine, Editor/Research Assistant
Ashley Layne, Project Manager

**Topic 2:** Preparing School Leaders to Address Reading for Learning in Middle Grades and High School

*Alfred Tatum, Director of UIC Reading Clinic, University of Illinois - Chicago*

Dr. Alfred W. Tatum is an associate professor at the University of Illinois at Chicago. He also serves as Director of the UIC Reading Clinic where he hosts an annual African American Adolescent Male Summer Literacy Institute. Alfred authored the award-winning book, Teaching Reading to Black Adolescent Males: Closing the Achievement Gap (2005). His second book, Reading for Their Life: Re (building) the Textual Lineages of African American Adolescent Males, will be available by Heinemann in August 2009. He has authored more than 25 publications on the topics of adolescent literacy, teacher professional development in urban middle schools and high schools, and the literacy development of African American adolescent males. Dr. Tatum began his career as an eighth-grade teacher in Chicago.

*Yvonne Thayer, Senior Director, Making Middle Grades Work and Special Projects, SREB*

Yvonne is Senior Director for Making Middle Grades Work & Special Projects. She oversees SREB's work with middle grades and directs several leadership projects, which include working with state departments of education to develop capacity to provide technical assistance to low-performing districts and schools. She works with districts to provide school leadership team training to develop the capacity of schools to make improvements and is leading a new effort in South Carolina to extend this work as the state offers an aspiring leaders academy in some of the hardest to serve schools.

*David Spence, President, Southern Regional Education Board*

David S. Spence became president of the Southern Regional Education Board, the nation’s first interstate compact for education, in 2005. At SREB, Spence oversees the nation’s largest school improvement network, the nation’s largest educational technology collaborative of state K-12 and postsecondary agencies, and many other initiatives designed to help the organization’s 16 member states lead the nation in educational progress. Spence's career has included several state-level leadership positions in SREB states, and he served on the SREB staff on two previous occasions, including as vice president for educational policies. He has been executive director of the Florida Postsecondary Education Planning Commission, executive vice chancellor for the University System of Georgia, and executive vice chancellor and vice chancellor for academic programs at the State University System of Florida.

From 1998 to 2005, he was executive vice chancellor and chief academic officer of the California State University System, which includes 23 campuses, over 400,000 students and 20,000 faculty. Among his accomplishments were the implementation of the system’s strategic plan, the development of a systemwide initiative to increase graduation rates and the establishment of a system accountability process. Most notably, he initiated and coordinated the implementation of
California’s Early Assessment Program, in which the college readiness of high school juniors is evaluated and the results used to provide further preparation in the senior year and to adjust high school standards to focus on college readiness.

Spence holds a B.A. in history from the University of Rochester and an M.S. in education from the State University of New York in Albany. He received his Ph.D. in higher education from SUNY/Buffalo in 1974. A native of Schenectady, he is married and has two children.

**Vernon Prosser, Principal, Broome High School, Spartanburg, SC**

Vernon Prosser is an accomplished educator and educational leader in Spartanburg, South Carolina. He began his career in Spartanburg as an industrial education teacher and has since held numerous building and district leadership positions: assistant principal and principal at the middle school and junior high school levels; director of facilities and maintenance; assistant superintendent of finance and operations; and since 2006, principal of Broome High School with a staff of 60 teachers serving 930 students. Prosser is noted for his skills in the use of Northwest Evaluation Associations (NWEA’s) assessment called *measures of Academic Progress* (MAP) and reading Lexiles to advance students’ literacy across the curriculum. Prosser received his doctorate in vocational and technical education from Clemson University.

Nathan served as the university representative on the Louisiana Wallace Foundation grant and on the SREB University Network.

Carmen Riedlinger, State Coordinator, The Wallace Foundation Grant, Office of the Governor

Carmen Riedlinger serves the Office of the Governor as The Wallace Foundation Coordinator for Louisiana’s $3.4 million educational leadership grant, coordinating efforts to connect the dots between the many leadership initiatives of the Board of Regents, the State Department of Education, the Board of Elementary and Secondary Education, and the Office of the Governor.

Prior to this position, Carmen traveled the path of education ~ secondary teacher to assistant principal to elementary & high school principal, and then back to school for a Ph.D. in Educational Administration from the University of New Orleans. This shift led to her work in higher education, where she gratefully discovered that there did exist work in the field that moved at an unhurried pace. At Our Lady of Holy Cross College, Carmen taught future teachers at the undergraduate level, and then future school leaders at the graduate level, serving as Chair of Graduate Education until 2007. She left higher education for her current position.

Each of those positions has added great learning and enjoyment to her life….but it is her husband, Brian, their five children (three of whom are getting married in less than one year) and her three grandchildren who all give her more joy than any position possibly could.

C. How Professional Standards Board and the Kentucky Department of Education are working Together to Redesign Preparation of School Leaders

*Debbie Daniels, Kentucky Cohesive Leadership System State Director, Kentucky Department of Education*

Debbie Daniels is the Kentucky Cohesive Leadership System State Director for the Kentucky Department of Education where she leads the department’s initiatives on principal preparation and school leadership development, distributive leadership team development and the Instructional Leadership Team Network, and the Instructional Support Network that provides resources, responses to district inquiries and a weekly newsletter. She also serves as an online course coach for WIDE World at Harvard University and is a Harvard Fellow.

She is a former Kentucky Highly Skilled Educator, District Instructional Supervisor, elementary (K-8) and secondary principal, district grant-writer and fine arts/political science/economics teacher. Debbie has served on local, regional and state boards in the areas of teacher internships, child prevention and abuse, guidance and counseling, career and technical education, speech and theatre programs, professional development, gifted and talented programs and arts and humanities. She served on Kentucky’s Education Leadership Redesign Task Force that made recommendations to the legislature and Educational Professional Standards Board on redesigning principal preparation programs and certification.

*Phillip Rogers, Executive Director, Kentucky Education Professional Standards Board*

Phillip S. Rogers, Ed.D., of Scottsville, Kentucky, became executive director of the Kentucky Education Professional Standards Board (EPSB) in 2005. He has been with the EPSB since 2000, serving as director of the Division of Professional Learning and Assessment prior to becoming executive director. A native of Nashville, Tennessee, Rogers received a B.S. degree in counseling from Liberty University in Virginia, an M.A. in child development from Western Kentucky University, and a doctorate in education evaluation from the University of Louisville.

Before going to the EPSB, Rogers served as the founding director of the Allen County Schools’ Family Resource Center, recognized in 1995 as Kentucky’s Outstanding Family Resource Center by the Kentucky Association of Guidance Counselors.

As executive director of the EPSB, Rogers oversees the daily operation of the agency, which was established as part of the 1990 Kentucky Education Reform Act. Among other responsibilities, the Standards Board is charged with establishing standards of performance both for preparation programs and practitioners; accrediting educator preparation programs; selecting assessments for teachers and administrators; overseeing internship programs for new teachers and principals; and issuing, renewing, suspending, and revoking Kentucky certificates for professional school personnel.

Rogers recently served as the principal investigator for an $11 million federal teacher quality enhancement grant. In addition, he has performed research and evaluations for a variety of organizations and programs, including the Kentucky Institute for Educational Research, the National Center for Family Literacy, the Kentucky Safe Schools Project, and the Kentucky Department for Juvenile Justice. Educational policy
formation as it relates to educator preparation and professional development for experienced educators are two of his current research interests.
