## College Affordability Profile

The effect of the pandemic on state budgets has not yet peaked, but it will likely affect college affordability for years to come. In this year's SREB College Affordability Profiles, we examine data for the 2017-18 academic year, the most recent year that student financial aid and net price data are available. Although the data were collected prior to the pandemic, it shows that states continue to face challenges in making college affordable. In many states, students must spend a larger percentage of their family income to pay for college particularly at four-year institutions. In most states, two-year institutions and technical colleges and institutes offer the most affordable degree programs.

### Percentage of Average Family Income Required to Pay the Net Price for Full-Time Students at Public Institutions

In 2017-18, the percentage of family income required to pay for college in Louisiana was **lower than the SREB average** for **four-year Type 1 and Type 2 institutions**.

Families in Louisiana paid a higher percentage of their family income in 2017-18 for a full-time student to attend four-year and two-year institutions than in 2012-13.

Louisiana's families needed, on average, 26% of their income in 2017-18 to pay educational expenses for a full-time student at four-year Type 1 institutions and 28% at four-year Type 2 institutions.

In 2017-18, Louisiana families needed, on average, 23% of their income to cover educational expenses at two-year and 20% at technical institutions.

U.S. Department of Education, Integrated Postsecondary Education Data System, Student Financial Aid Files and Directory Files 2012 and 2017, 12-Month Enrollment Instructional Activity Files 2013 and 2018. American Community Survey Public Use Microdata Samples 2012 and 2017. Institutional sectors based on SREB-State Data Exchange categories.

#### Key terms:

**Four-Year Institution Type 1:** four-year institutions that awarded at least 30 doctoral degrees in five different areas.

**Four-Year Institution Type 2:** all other four-year institutions.

**Net Price:** total cost of attendance (includes tuition, fees, room & board, etc.) minus federal, state/local government, or institutional grant and scholarship aid.

## Distribution of Average Family Income

Data on net price is collected using five income categories. In Louisiana, students from families that **made less than \$30,000** accounted for **the largest percentage of families in 2012 and 2017**.

Integrated Postsecondary Education Data System, Student Financial Aid Files and Directory Files 2012 and 2017.

## Percentage of Income Required for Median Tuition and Fees at Public Institutions for Families Making Less Than \$30,000

The percentage of income required for **median tuition and fees** at public institutions **was higher at four-year institutions than two-year institutions in 2012-13 and 2017-18** for Louisiana families making less than \$30,000.

For families making less than \$30,000, the cost of median tuition and fees at four-year institutions was 52% of income in 2017-18, compared to 33% in 2012-13.

Families needed 25% of their income in 2017-18 to cover the state's median tuition at two-year institutions. In 2012-13 it was 18%.

U.S. Department of Education, Integrated Postsecondary Education Data System, Student Charges Data Files and Directory Files 2012 and 2017, 12-Month Enrollment Instructional Activity Data Files 2013 and 2018. American Community Survey Public Use Micro Sample Files 2012 and 2017.

## Net Price as a Percentage of Income, Public Four-Year Type 1 Institutions

Louisiana families in the **lowest income category** were the **most affected** by the increase in net price at four-year Type 1 institutions.

U.S. Department of Education, Integrated Postsecondary Education Data System, Student Financial Aid Files and Directory Files 2012 and 2017, 12-Month Enrollment Instructional Activity Files 2013 and 2018. American Community Survey Public Use Microdata Samples, 2012 and 2017. Institutional types based on SREB-State Data Exchange categories.

The increase in the percentage of income needed to pay for four-year Type 1 institutions in Louisiana was much larger for families making less than \$30,000 than for any other income category.

Families making less than \$30,000 in 2012 needed 36% of their income to pay educational expenses. In 2017 it was 49%.

Families making over \$110,000 only needed 7% of their income in 2012 and 9% in 2017 to cover expenses at these institutions.

## Net Price as a Percentage of Income, Public Four-Year Type 2 Institutions

Louisiana families making less than \$30,000 were the **most affected** by the rising cost of attendance at four-year Type 2 institutions.

The increase in the percentage of income needed to pay for four-year Type 2 institutions in Louisiana was substantially larger for families making less than \$30,000 than for any other income category.

Families making less than \$30,000 in 2012 needed 50% of their income to pay educational expenses. In 2017 it was 65%.

Families making over \$110,000 only needed 7% of their income in 2012 and 8% in 2017 to cover expenses at these institutions.

U.S. Department of Education, Integrated Postsecondary Education Data System, Student Financial Aid Files and Directory Files 2012 and 2017, 12-Month Enrollment Instructional Activity Files 2013 and 2018. American Community Survey Public Use Microdata Samples, 2012 and 2017. Institutional types based on SREB-State Data Exchange categories.

## Net Price as a Percentage of Income, Public Two-Year Institutions

The **percentage of income** that Louisiana families needed to pay for educational **expenses at two-year institutions increased** from 2012 to 2017.

U.S. Department of Education, Integrated Postsecondary Education Data System, Student Financial Aid Files and Directory Files 2012 and 2017, 12-Month Enrollment Instructional Activity Files 2013 and 2018. American Community Survey Public Use Microdata Samples, 2012 and 2017. Institutional types based on SREB-State Data Exchange categories.

The increase in the percentage of income needed to pay for two-year institutions in Louisiana was much larger for families making less than \$30,000 than for any other income category.

At Louisiana's two-year institutions, families making less than \$30,000 in 2012 needed 42% of their income to pay for educational expenses. In 2017 it was 53%.

Families making over \$110,000 only needed 6% of their income in 2012 and 7% in 2017 to cover expenses at these institutions.

## Net Price as a Percentage of Income, Public Technical Institutions

The **cost of attendance at technical institutions remained stable** from 2012-13 to 2017-18 for Louisiana **families making \$110,000 or less**.

The increase in the percentage of income needed to pay for technical institutions in Louisiana was larger for families making between \$48,000 and \$75,000 than for any other income category.

At Louisiana's technical institutions, families making less than \$30,000 needed 45% of their income to pay for educational expenses in 2012 and 2017.

Families making over \$110,000 only needed 6% of their income in 2017 to cover expenses at these institutions.

U.S. Department of Education, Integrated Postsecondary Education Data System, Student Financial Aid Files and Directory Files 2012 and 2017, 12-Month Enrollment Instructional Activity Files 2013 and 2018. American Community Survey Public Use Microdata Samples, 2012 and 2017. Institutional types based on SREB-State Data Exchange categories.

## State Financial Aid Per Student

Louisiana awarded **more merit-based aid in 2017-18** per full-time-equivalent student than the SREB and national averages. **Merit-based aid also increased** from 2012-13 to 2017-18.

	Need Only	Need and Merit	Merit Only	Special Purpose
Louisiana (2012-13)	\$156	\$0	\$1,154	\$6
Louisiana (2017-18)	\$167	NA	\$1,877	\$6
SREB Average (2017-18)	\$389	\$143	\$476	\$74
U.S. Average (2017-18)	\$411	\$241	\$195	\$53

The state spent \$1,877 on average per undergraduate FTE student on merit-based aid in 2017-18, compared to \$1,154 in 2012-13. The SREB average in 2017-18 was \$476 and the national average was \$195.

Louisiana spent \$167, on average, per FTE for need-based financial aid in 2017-18, much less than the SREB average of \$389 and the national average of \$411.

National Association of State Student Grant & Aid Programs 2013 and 2018 annual survey (results for public institutions only). U.S. Department of Education, Integrated Postsecondary Education Data System Instructional Activity File, 2013 and 2018, and Directory File, 2012 and 2017.

## Student Borrowing at Public Institutions

In 2017-18, Louisiana graduates **borrowed more than the SREB and national averages** to earn degrees **at four-year Type 2 and two-year institutions**.

	Louisiana, 2012-13	Louisiana, 2017-18	SREB Average, 2017-18	U.S. Average, 2017-18
Four-Year Type 1	\$17,803	\$20,279	\$21,600	\$21,232
Four-Year Type 2	\$20,490	\$24,155	\$22,677	\$19,510
Two-Year	\$10,932	\$13,759	\$10,798	\$10,171

U.S. Department of Education, College Scorecard, 2012 and 2017. U.S. Department of Education, Integrated Postsecondary Education Data System, 12-Month Enrollment Instructional Activity Data Files 2013 and 2018 and Directory Files 2012 and 2017.

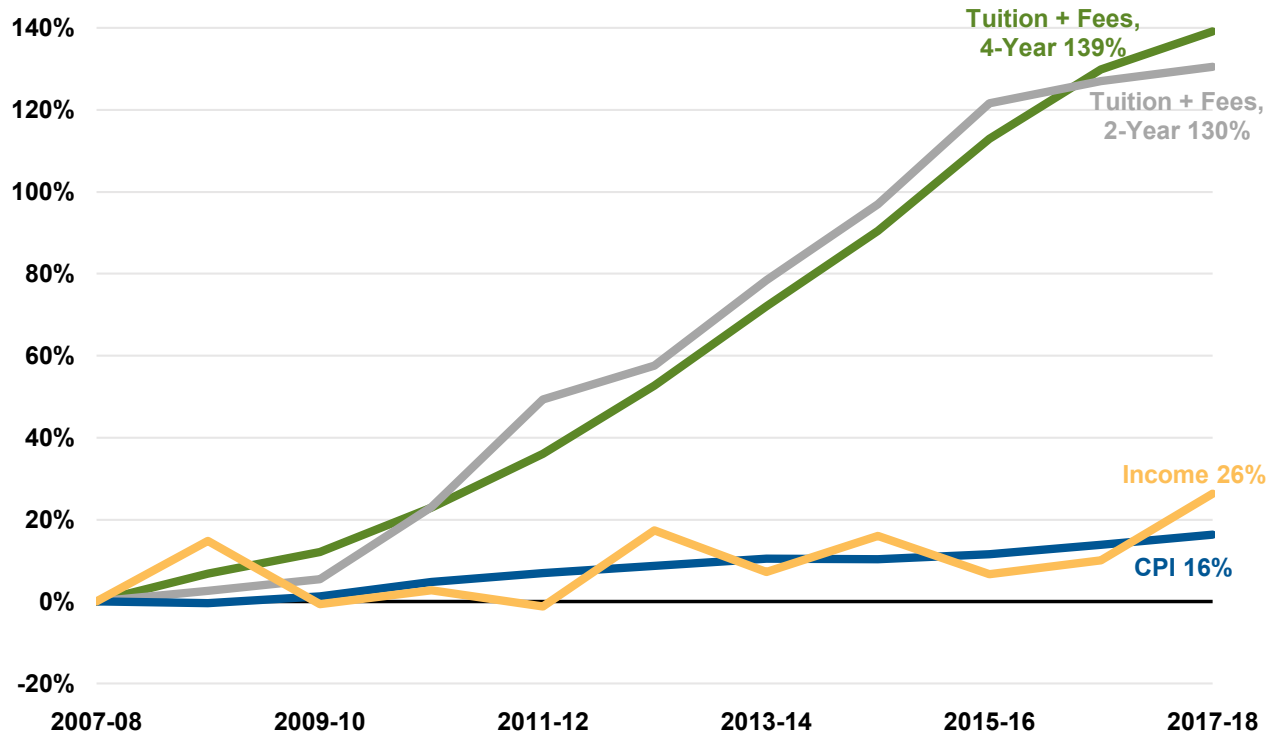

Graduates who sought a degree or certificate from four-year Type 1 universities in Louisiana in 2017-18 borrowed, on average, \$20,279 and graduates of four-year Type 2 institutions borrowed \$24,155. These amounts were noticeably higher than average amounts borrowed in 2012-13 and the SREB and national averages for four-year Type 2 institutions in 2017-18.

Students at public two-year colleges borrowed, on average, \$13,759 in 2017-18, which was more than the average amount in 2012-13 and the SREB and national averages in 2017-18.

## Changes in Tuition and Fees, CPI and Household Income

Compared to the CPI and household income, **tuition and fees** at Louisiana public colleges and universities **increased substantially** between 2007-08 and 2017-18.

Over that decade, the CPI increased by 16% and median household income in Louisiana increased by 26%, while tuition and fees increased by 139% at four-year institutions and 130% at two-year institutions.

Consumer Price Index retrieved from FRED, Federal Reserve Bank of St. Louis: Bureau of Labor Statistics, South urban area, 2017. Tuition and fees retrieved from the U.S. Department of Education, Integrated Postsecondary Education Data System, Institutional Characteristics Files, 2007 to 2017. Median household income retrieved from FRED, Federal Reserve Bank of St. Louis: U.S. Census Bureau, Current Population Survey, Annual Social and Economic Supplements, South region, 2020.

## Dollars per FTE Student from State Appropriations and Tuition and Fees

Operational funds consisted **mostly of tuition and fees** for Louisiana's **public four-year institutions** in 2017-18.

Net tuition and fees per FTE student at Louisiana's four-year institutions increased from \$4,072 in 2007-08 to \$9,273 in 2017-18. In comparison, state appropriations per FTE student dropped from \$7,773 in 2007-08 to \$3,818 in 2017-18. Students and families started paying a larger share of the total funding per student after 2010-11.

Source: SREB-State Data Exchange

Most of the operating expenses at Louisiana's **public two-year institutions** were provided by **tuition and fees** in 2017-18.

In 2017-18, net tuition and fees per FTE student at Louisiana's two-year institutions increased from \$2,576 in 2007-08 to \$4,617 in 2017-18. In comparison, state and local appropriations per FTE student dropped from \$4,475 in 2007-08 to \$2,764 in 2017-18. Students and families started paying a larger share of the total funding per student after 2010-11.

## Additional State Context

**Postsecondary Enrollment.** In 2017-18, 36% of students in Louisiana were enrolled in public four-year Type 1 institutions, close to 36% were enrolled at public four-year Type 2 institutions, almost 22% were enrolled in public two-year colleges, and 6% were enrolled in public technical colleges.

**First-Year Retention.** For the 2017 cohort, 86% of students attending public four-year Type 1 institutions in Louisiana were still enrolled one year later, 76% were retained after the first year in public four-year Type 2 institutions, 51% were retained at public two-year, and 47% were retained at technical colleges.

**Pell Grants.** In 2017-18, 19% of the average cost of attendance in public four-year Type 1 institutions in Louisiana was covered by the average Pell Grant award. The average grant amount covered 22% of costs in public four-year Type 2 institutions, 24% in public two-year colleges, and 25% of costs were covered in public technical colleges.

**Education Attainment.** In 2018, over 47% of Louisiana's working adult population between ages 25 and 64 had a postsecondary credential of value. The state's educational attainment goal is to reach 60% by 2030.

**Student Debt.** In Louisiana, 43% of the class of 2019 graduated from four-year colleges with debt, owing an average of \$25,512.

## Louisiana Institutions by Type

### Public Four-Year Type 1

Louisiana State University and Agricultural & Mechanical College

Louisiana Tech University

University of New Orleans

University of Louisiana at Lafayette

### Public Four-Year Type 2

Grambling State University

Louisiana State University-Alexandria

Louisiana State University-Shreveport

McNeese State University

Nicholls State University

University of Louisiana at Monroe

Northwestern State University of Louisiana

Southeastern Louisiana University

Southern University and A&M College

Southern University at New Orleans

### Public Two-Year

Bossier Parish Community College

Delgado Community College

Nunez Community College

Louisiana State University-Eunice

Southern University at Shreveport

South Louisiana Community College

River Parishes Community College

Baton Rouge Community College

Louisiana Delta Community College

## Technical Colleges

Central Louisiana Technical Community College

Northwest Louisiana Technical College

Fletcher Technical Community College

SOWELA Technical Community College

Northshore Technical Community College

South Central Louisiana Technical College

---

## Notes

**Type 1** four-year institutions award at least 30 doctoral degrees in five different areas. **Type 2** includes all other four-year institutions. The **public two-year category** includes institutions that primarily award associate degrees; the list may include two-year institutions that award bachelor's degrees. The **technical college category** includes postsecondary institutions that offer programs of less than two-years duration below the baccalaureate level and occupational and vocational schools with programs that do not exceed 1800 contact hours. This profile does not report data for the technical college category if less than 3% of students are enrolled in this sector.

Institutions are listed as they were categorized in the 2017-18 Data Exchange Survey and if they submitted the data required for this profile.

This profile is based on data reported to IPEDS by institutions during the 2017-18 academic year. Some IPEDS surveys collect data for the prior academic year; for instance, the 2017-18 Student Financial Aid survey collected data for the 2016-17 academic year.

Institutions or states may have updated data previously reported, or adjusted methodology to calculate a statistic. As a result, some data in the current profile may differ from data reported in past Affordability Profiles for the same time period.

See the technical guide at [SREB.org/Affordability](https://www.sreb.org/Affordability) for detailed sources and explanatory notes.

*SREB College Affordability Profiles detail data and trends specific to each SREB state to assist policy-makers with decisions on postsecondary affordability and attainment. For additional resources, including recommendations of the Commission on College Affordability in the South and the SREB Fact Book on Higher Education, visit <https://www.sreb.org/Affordability>.*
