Virginia
College Affordability Profile 2018

The socioeconomic future of SREB states depends in large part on substantially increasing the number of residents with postsecondary credentials of value. As the population of SREB states become more diversified, Virginia faces a critical challenge to help more people succeed in postsecondary education and earn a living wage. This 2018 college affordability profile illustrates how affordable different public institutions are for Virginia families at various income levels.

What Percentage of Average Family Income Is Required to Attend College Full Time?

In 2015-16, families in Virginia needed on average 34 percent of their income to pay for educational expenses for a full-time student at public category 1 institutions and close to 36 percent at public four-year category 2 institutions. These percentages were much higher than they were in 2010-11 and higher than the SREB and national averages in 2015-16.

For a full-time student at public two-year institutions, families in Virginia needed to pay, on average, 18 percent of their income in 2015-16 to cover educational expenses. This was higher than the 14 percent needed in 2010-11 and close to SREB and national averages in 2015-16.

How Much Is Spent Per Student on Financial Aid?

Virginia spent $1,045 on average per full-time-equivalent student on need-based aid in 2015-16 compared to $262 in 2010-11. The SREB average was $343 and the national average was $376 in 2015-16. In 2015-16, the state spent $277, on average, per FTE for financial aid that had both need and merit criteria, more than the SREB average at $135 and the national average of $214.
### For Families Making Less Than $30,000, What Percentage of Income Is Required for Tuition at Lowest-Priced Colleges?

Sixteen percent of families in Virginia made less than $30,000 in 2015. For these families, the cost of tuition and fees at the lowest-priced public institutions averaged 25 percent of income that year, compared to 17 percent in 2010-11. These percentages were considerably higher than the SREB and national averages in 2010-11 and 2015-16.

### How Much Do Graduates Borrow?

Graduates who sought a degree or certificate from public four-year category 1 universities in Virginia in 2015-16 borrowed, on average, $21,999 and graduates of four-year category 2 institutions borrowed $23,581, on average. These amounts were noticeably higher than average amounts borrowed in 2010-11. Borrowing at category 1 universities was close to SREB and national averages in 2015-16; the amount borrowed by graduates at category 2 universities was close to the SREB average but much higher than the national average.

Students at public two-year colleges borrowed, on average, $9,857 in 2015-16, more than the average amount borrowed in 2010-11 but close to SREB and national averages.
Virginia, 2010-11 | Virginia, 2015-16 | SREB Average, 2015-16 | U.S. Average, 2015-16
---|---|---|---
Public Four-Year Category 1 | $17,858 | $21,999 | $21,703 | $21,505
Public Four-Year Category 2 | $18,636 | $23,581 | $22,391 | $19,893
Public Two-Year | $7,412 | $9,857 | $9,829 | $9,655

**A Closer Look at Family Ability to Pay, 2006-2016**

SREB’s Commission on College Affordability defined affordability as the relationship of the price required to attend higher education — or the net price — to family income.

Net price is the sum of tuition and required fees, plus room and board, books and other expenses, minus grant aid students receive from the federal or state government or the institution.

**Net Price as a Percentage of Income, Public Four-Year Category 1 Institutions**

At Virginia’s public four-year category 1 institutions, families making less than $30,000 in 2015 needed 70 percent of their income for educational expenses. In 2010, that percentage was 44 percent. Families making between $30,000 and $48,000 needed 35 percent of their income for a full-time student in 2015-16; these families needed 26 percent of their income in 2010-11 to cover educational expenses.

Net Price as a Percentage of Income, Public Four-Year Category 2 Institutions

At public four-year category 2 institutions in Virginia, families making less than $30,000 in 2015 needed 77 percent of their income for educational expenses compared to 57 percent in 2010. Families making between $30,000 and $48,000 needed 37 percent of their income in 2015 compared to 28 percent in 2010-11 for a full-time student.

Changes in Tuition and Fees, CPI, and Income

Compared to the Consumer Price Index and household income, tuition and fees at Virginia public colleges and universities increased substantially between 2006 and 2016. Over that decade, the CPI increased by 20 percent and household income declined by 2 percent, while tuition and fees at four-year institutions increased by 116 percent and by 124 percent at two-year institutions.

Ratio of State Appropriations and Tuition and Fee Revenues

Public Four-Year Institutions

In 2015-16, net tuition and fees at Virginia’s four-year institutions made up 69 percent of total funds available for operations of the state’s public institutions, while state appropriations supplied the remaining 31 percent. In comparison, state appropriations provided 47 percent in 2005-06.

Public Two-Year Institutions

Virginia’s two-year colleges rely much more on tuition and fees than on state and local appropriations for operational revenue. Although appropriations provided 58 percent of revenues in 2005-06, that share had dropped to 39 percent by 2015-16; tuition and fees made up 61 percent of revenues that year compared to 42 percent in 2005-06.

**Additional Context**

**Attainment** — In 2016, 52 percent of Virginia’s working adult population between ages 25 and 64 had a postsecondary credential of value. The state’s educational attainment goal is to reach 70 percent by 2030.

**Poverty** — In 2016, 14 percent of children in Virginia were living in poverty. This was down from 2010, when 15 percent were living in poverty. The SREB region and the nation saw overall declines in this rate from 26 to 23 percent and from 22 to 20 percent during this time period, respectively.

**FAFSA** — Through June 2018, 57 percent of Virginia’s 2017-18 12th grade class had completed a FAFSA application, a one-year increase of around 3 percent. Nationwide, the FAFSA completion rate was nearly 61 percent.

**Enrollment** — In 2015-16, 40 percent of students in Virginia were enrolled in public four-year category 1 institutions, close to 19 percent were enrolled at public four-year category 2 institutions and 41 percent were enrolled in public two-year colleges.

**Automation** — A recent study has found that individuals face a reduced risk of job automation if they have achieved a higher level of educational attainment and that “Artificial Intelligence puts more low-skilled jobs at risk than previous waves of technological progress.” According to this study, approximately 10 percent of the jobs in the United States can be considered at high risk of automation (in that they have an over 70 percent probability of being automated), with roughly an additional 25 percent of jobs at risk of significant change due to automation.

**Virginia Institutions by Type**

**Public Four-Year Category 1**
- College of William and Mary
- George Mason University
- Old Dominion University
- Virginia Polytechnic Institute and State University
- Virginia Commonwealth University
- University of Virginia-Main Campus

Richard Bland College of the College of William and Mary
Southside Virginia Community College
Southwest Virginia Community College
Thomas Nelson Community College
Tidewater Community College
Virginia Highlands Community College
Virginia Western Community College
Wytheville Community College

Notes and Sources

Category 1 four-year institutions award at least 30 doctoral degrees in five different areas. Category 2 includes all other four-year institutions. The public two-year category includes institutions that primarily award associate degrees; the list may include two-year institutions that award bachelor's degrees.

Institutions are listed as they were categorized in the 2015-16 Data Exchange Survey and if they submitted the data required for this profile.

This profile is based on data reported to IPEDS by institutions during the 2010-11 and 2015-16 academic years. Some IPEDS surveys collect data for the prior academic year; for instance, the 2015-16 Student Financial Aid survey reports data for 2014-15.

Institutions or states may update data that were previously reported to an organization or adjust the methodology to calculate a statistic. As a result, some data reported in past Affordability Profiles may differ from data in the current profile, even though the data are for the same time period.

See the technical guide at SREB.org/Affordability for detailed sources and explanatory notes.

SREB College Affordability Profiles detail data and trends specific to each SREB state to assist policymakers with decisions on postsecondary affordability and attainment. For additional resources, including recommendations of the Commission on College Affordability in the South and the SREB Fact Book on Higher Education, visit SREB.org/Affordability.
