**Conference Objectives: Upon completion of this conference, participants will be able to:**

1. Evaluate and analyze applications of best academic practice for transforming nursing programs – especially during periods of transition.
2. Integrate new tools, including technology and simulation applications and active learning models, into nursing education in ways that promote greater student engagement and better outcomes, and transform learning
3. Apply effective teaching and mentoring strategies for preparing adjunct faculty and preceptors to work with nursing students in today's education settings.
4. Apply the steps involved in educational preparation of nursing students in different types of disaster preparedness involving various types of victims, including medically vulnerable ones.

**\*Continuing Education Credits:**

Application for contact hours is being made to LSU Health – New Orleans.
