fill them in on your experience in the program. We anticipate that a minimum of 60 new scholars will enter the program this year. While most SREB states will hold firm on their support, some states are experiencing budget cuts.

Also, we are proud to announce that five institutions have joined the program: Ball State University, the University of Tulsa, Indiana University, Indiana University-Purdue University

Indianapolis and North Dakota State University. We welcome these universities that have brought on institutionally funded scholars.

Have a great semester, and I look forward to hearing from you in the near future and seeing you at the Institute on Teaching and Mentoring in Atlanta from October 30 through November 2, 2014!

## Important Things for Current Scholars to Remember

### Scholar Responsibilities

- Notify the Doctoral Scholars Program *immediately* regarding any change in contact information, enrollment, employment or academic status. E-mail Tammy Wright at [tammy.wright@sreb.org](mailto:tammy.wright@sreb.org).
- Send in a grade report or dissertation progress report each semester to Tammy Wright.
- Maintain full-time enrollment for ALL semesters while being actively funded.
- Attend the annual Institute on Teaching and Mentoring each fall. If you have any questions, e-mail Nicole Schimmel at [nicole.schimmel@sreb.org](mailto:nicole.schimmel@sreb.org).
- Get your Ph.D. and join the professoriate!

#### **Remember, Scholars:**

Update and keep your online Scholar Directory listing current. To access the Scholar Directory, the Scholar Support Discussion Board and other great tools to help you on your journey, go to [www.sreb.org](http://www.sreb.org) and click on the Doctoral Scholars link under "Programs."

### Other Guidelines

- You **MUST** advise SREB if you are not a full-time student. Also notify SREB if you are doing an audit, independent study or research hours.
- You **MUST NOT** be employed under any circumstances outside of the department, part time or full time, without notifying SREB. Any employment in the department must be reported and approved.
- You **MUST** report any additional funds earned while receiving program support, including scholarships, fellowships, assistantships, grants or other monies, regardless of when you receive the funds.

### Grades and Dissertation Updates

This is just a reminder that grades are due each term. In the last newsletter, we advised all scholars that only two e-mail requests for grades and dissertation updates will be sent before stipends are withheld.

- Grades should be e-mailed each term.
- Grades should include your term GPA and overall GPA.
- If you take research hours or dissertation hours that are pass/fail, you must send a short narrative.
- Dissertation scholars should submit a short narrative outlining your progress this term and plans for the next term. Any hardships, breakthroughs and presentations that are noteworthy also should be included. Please include your anticipated final defense date in your narrative.

Remember that when you defend your dissertation and the committee signs off, we consider you a program graduate. We understand that sometimes the committee will sign off even with changes to be made, but if you get the signatures, we consider you a completer. Please contact SREB as soon as you defend or have a scheduled date. Contacting us is very important as we track your progress, and it is very exciting for us to see the calendar covered with defense dates.

We are happy to report that approximately 300 potential applicants have logged in to our online application center. In January, please refer new qualified candidates to apply for the DSP fellowship, awarded at the beginning of each fall semester. We expect to see all new scholars at this year's institute!
