**WHY** should state leaders care about integrating ed tech across ESSA, Perkins V and WIOA?

Because if they do, states can

- streamline **data and information** spanning early childhood through workforce
- shape disparate **programs and services** into a coherent system
- support **educators** in learning together and sharing resources and ideas
- use their **funds** more efficiently and effectively

...and members of the public can

- better **understand** the educational opportunities available to them throughout their lifespan
- **experience** stronger educational programs that support their journeys toward success in school, careers and life

**NOW IS THE TIME!**

In 2019 and 2020, states submit or revise all 3 plans!
STATES LEADING THE WAY connecting the use of ed tech under ESSA, Perkins V and WIOA
SREB’s Big Message

Since, under ESSA, Perkins V and WIOA...

- SREB mini-webinar #1: Grant governance must be coordinated across the statutes
- SREB mini-webinar #2: Programs use ed tech in the same ways
- SREB mini-webinar #3: Educators must attend to equity
- SREB mini-webinar #4: Programs strive to meet overlapping accountability indicators, states report on outcomes in similar ways, and educators undertake similar actions to continuously improve with the same types of state support
  - Ed tech supports all this in overlapping ways
  - The statutes enable states to coordinate their plans

...Why not unify the use of ed tech in K-12, CTE and workforce training?
