

Virtual and Blended Instruction Workshop

You asked, we delivered. Learn how to offer quality instruction in *any* setting in SREB's new workshop.

Join us for a new national professional development workshop — **Engaging Students in a Blended Instructional World** — that helps educators like you adapt your content for any delivery format. Gain the skills and confidence you need to plan and deliver high-quality instruction face-to-face, online or in a blended setting.

Five 2.5-hour sessions will target the essential tech tools and instructional strategies you need to provide equitable access to engaging online learning experiences for every student, including special education students and English language learners.

Educators of grades six through 12 in any curricular area — literacy, math, science, social studies, the arts or career and technical education — will benefit from this workshop!

No need for a tech upgrade. Use your own devices and learning management system.

Need extra help? Meet with SREB's coaches during online office hours.

Select Your Sessions

Choice 1 – Mid-July	Choice 2 – Early August
Monday, July 13	Monday, August 3
Tuesday, July 14	Tuesday, August 4
Thursday, July 16	Thursday, August 6
Tuesday, July 21	Tuesday, August 11
Thursday, July 23	Thursday, August 13

Need to Know

Cost: \$250

Location: All sessions will meet on a secure Zoom platform. Participants will complete practice assignments on their own time.

Times: All sessions meet 9 – 11:30 a.m. EDT.

Session Takeaways

Session 1: Learning in a Virtual Environment. Learn how technology tools can be used to build knowledge, support collaboration, build learning resources for students and assess students' progress.

Session 2: Planning for Virtual Instruction. Gain strategies for planning and organizing instruction and improving the resources available in different learning management systems.

Session 3: Using Virtual Platform Basics. Learn how to use chats, Q&As, surveys, annotation, whiteboards, breakouts and more.

Session 4: Using Additional Web-Based Tools. Experiment with tech tools that interest students and create artifacts of learning by implementing instruction using G Suite tools, Classkick, Padlet, Kahoot, Lino-it and more.

Session 5: Supporting Exceptional Learners in a Virtual Environment. Engage special education students and English language learners with tools like Immersive Reader, Google Translate and videos.
