College Career Math Ready

College Career Math Ready is a free course designed for high school seniors who have completed Algebra I, Geometry, and Algebra II, and need a transition course to get them ready for college-level coursework. The course emphasizes understanding of mathematics concepts rather than memorizing procedures. By engaging students in real-world applications, **College Career Math Ready** develops critical-thinking skills that students will use in college and their careers. **College Career Math Ready** has been implemented in hundreds of high schools across the nation and has a proven track record of increasing student readiness.
